

Technical Data

Dimensions (WDH): 1550 x 1330 x 2350
 Clear door opening: 895 x 1898
 Trolley capacity: 890 x 1040 x 1890
 Floor: 25mm floor available (not standard)

Temperature (chilling): 70°C to 3°C in less than 90 mins
 Capacity: 100kg

Cooling Duty @ -15°C (kW): 8.5
 Number of fans: 3
 Number of coils: 1
 Fan load (kW): 0.6
 Defrost load (kW): 0
 Drainage: 22mm drain connection / tundish required
 Evaporating temperature: -15°C
 Refrigerant control: TEV (MOP @ +15°C)
 Gas: R404a
 Inlet size: 1/2"
 Outlet size: 1 1/8"
 Electrical supply: 240V 20A (fans and defrost)

Notes:

- Modular unit / Assembly required
- Floor surface +/- 5mm recommended
- Separate 415V 3 phase compressor and condenser unit required.
- Right hand hinged, left hand hinged and pass through models shown
- Pass through models available in various door hinging arrangements
